Median Grades for Undergraduate Courses - Winter 2020

Listed below are the enrollment and median course grades for all courses offered in 2020 Winter which had an enrollment of 10 or more students and are not otherwise exempted from having their median grades appear on student transcripts. "Enrollment" here means the number of students graded under the A-E grading system; thus graduate students, as well as undergraduates for whom the grade has not yet been entered, do not count in this regard. If the median is an expression such as A-/B+, it means that the course had an even number of students and that exactly half of the class had A- or better and the other half B+ or lower.

These medians have been calculated using grades available as of June 17, 2020; thus there may be some changes from the first version of this list, created at the end of the term, due to resolution of Incompletes, late grade submissions, or other changes. This is the final list for 2020 Winter, and represents the information that will appear on student transcripts, regardless of any further changes that might occur in grades for the term.
